To make sense of the world, we're always trying to place things in context, whether our environment is physical, cultural, or something else altogether. Now that we live among digital, always-networked products, apps, and places, context is more complicated than ever—starting with "where" and ...

### **Understanding Context: Environment, Language, and ...**

Understanding Context, by Andrew Hinton, offers a powerful toolset for grasping and solving the challenges of contextual ambiguity. By starting with the foundation of how people perceive the world around them, it shows how users touch, navigate, and comprehend environments made of language and pixels, and how we can make those places better.
